

Description

- Ribbed Multi Layer Pads are constructed of two layers of thick ribbed pads encasing one 1.5 mm thickness steel plate in the center.
- Alternate rib design with the ribs below and above joined at right angles to each other to eliminate s kidding.
- Diagonal ribs help to distribute load evenly.

Technical Data

Item Code	Art. No.	Length (L)	Width (B)	Thickness (s)	Deflection	Max. Load
		mm	mm	mm	mm	N
SP RMLP152	448100	152	152	35	4.5	9000
SP RMLP102	448150	102	102	35	4.5	4000

Due to policy of continual improvement, the specifications are subject to change without prior notice.

Measurement are subject to 5% tolerance.

To achieve good sound suppressions do not load fitting.
